

Assignment 7

All assignments *must* be submitted as a JupyterLab `.ipynb` notebook file via email (aattanasio@unm.edu). Title the file with your name: `Assignment_NAME.ipynb`.

We're going to play around with files this time.

- First, create a text file using the write flag. Name it whatever you like.
 - Write some text in it, at least three unique lines.
 - Now, load the file and read it out.
 - Add a new line (or two) to the end of the text file. Repeat this via a loop twelve times.
-
