

Assignment 6

All assignments *must* be submitted as a JupyterLab `.ipynb` notebook file via email (aattanasio@unm.edu). Title the file with your name: `Assignment_NAME.ipynb`.

We're going to play around with strings today. The only rule is: *Do NOT use the `reversed()` function!*

- First, write a function that reverses the order of a given string using a `for` loop.
 - Next, rewrite the same function, but this time don't use any loops at all.
